Summary

Hello, I am Thong Ba Nguyen a full stack developer based in Toronto, ON. I employ a wide range of technological and creative skills to design and develop multiple applications with stylish user interfaces and high-performance APIs using different tech stacks. Also, I love to collaborate and share my ideas with team members to ship beautiful products within deadlines. I am actively seeking for an opportunity where I can contribute my skills and learn from my colleagues.

Experience

Machine Operator @ Vision Profile Extrusions

May 2019 - March 2020 // Toronto, ON

- Ensuring machines running smoothly and efficiently.
- Perform regular quality checks to ensure products are met the customer's requirements.

Barista @ Rustle & Still Coffee

February 2019 - May 2019 // Toronto, ON

- Take customer orders and convey them to other employees for preparation.
- Keep the area around the coffee machine organized.
